We offer one of the most comprehensive lines of heavy-duty clamping products in the business. Our heavy-duty products include T-Bolts, Spring Loaded T-Bolts, V-Inserts, Heavy-Duty and Constant Tension worm drive clamps. We cover the world of heavy-duty truck, off-road and industrial applications. Ask us about custom engineering a product to meet your special sealing requirements.

Heavy-duty T-Bolt clamps provide uniform sealing pressure for a positive, reliable seal. Designed for use in high vibration and large diameter applications common in heavy trucks, industrial machinery, off-road equipment, agricultural irrigation and machinery. Features a 3/4" wide stainless steel band with welded construction for reliability. Styles are available in Part Stainless or All Stainless steel.

**Standard T-Bolts**
The most widely used T-Bolt clamp design. Typical applications include truck air intake systems, cold side charge air systems, off-road equipment and industrial machinery.

**IDEAL® 30010 Series/TRIDON® 813 Series**
Lined Band & Bridge: 3/4” width, 201/301 stainless steel
Bolt: 1/4” plated carbon steel
Nut: 7/16” hex, plated carbon steel locknut, nylon insert
Trunnion: plated carbon steel

**IDEAL® 30011 Series/TRIDON® 811 Series**
All 300 Grade Stainless Steel
Marine Grade Clamps

**Channel Bridge T-Bolts**
Provides the added assurance of a rigid bridge liner to help prevent leak paths – good for softer hoses. Typical applications include truck air intake systems, cold side charge air systems, off-road equipment and industrial machinery.

**IDEAL® 30020 Series/TRIDON® 814 Series**
Lined Band & Bridge: 3/4” width, 201/301 stainless steel
Bolt: 1/4” plated carbon steel
Nut: 7/16” hex, plated carbon steel locknut, nylon insert
Trunnion: plated carbon steel

**IDEAL® 30021 Series/TRIDON® 810 Series**
All 300 Grade Stainless Steel
Marine Grade Clamps

**Spring Loaded T-Bolts**
Helical spring design compensates and provides constant tension to prevent leak paths due to temperature fluctuations. Typical applications include heavy truck charge air and cooling systems.

**IDEAL® 30030 Series/TRIDON® 819 Series**
Lined Band & Bridge: 3/4” width, 201/301 stainless steel
Spring: plated carbon steel
Bolt: 1/4” plated carbon steel
Nut: 7/16” hex, plated carbon steel locknut, nylon insert
Trunnion: plated carbon steel

We recommend a minimum of all 300 grade stainless steel clamps for marine applications. For applications directly over galvanized steel, we recommend an intermediate layer of non-conductive material such as vinyl electrical tape.
**T-Bolt Clamps**

Recommended installation torque is 75 in.-lbs. (8.5Nm)

For applications involving both high temperatures and the presence of chlorides, or any other special applications, contact Engineering Technical Support at 1-800-221-0100.
**V-Bands**

V-Bands seal connections for flanged joints. Typical applications include filter housings, turbocharger systems, exhaust systems and industrial applications where a flanged connection is required. V-inserts can be manufactured to OE specifications and are made to order. Send full specifications for quotes.

*Additional sizes made to order specification.

**EGR Cooler Mounting (Rectangular T-Bolts)**

Custom shaped to fit exhaust gas recirculation (EGR) cooler assemblies common in diesel trucks outfitted for new emissions standards. Manufactured to OE specifications provided. Samples shown here are non-stocking items. All EGR clamps are custom fit to cooler specification and made to order.
Heavy Duty

High Performance Worm Drive Hose Clamps

Premium Pow’r-Gear® and Trimax® clamps are designed for high vibration and stubborn leakage applications such as industrial machinery, heavy truck, farm and off-road equipment engines. Features an extra wide 5/8” band and a wide profile housing that provides maximum engagement of screw threads to band. Engineered to deliver exceptionally high rates of band tension to handle the toughest sealing jobs.

IDEAL® Pow’r-Gear® 60 Series / Tridon® Trimax® 850 Series
All Stainless Steel
Screw: 5/16” hex-head, 410 stainless steel.
Band: 5/8” band width. 0.028” thick. 300 stainless steel.
Housing: 0.060” thick. 300 stainless steel.

IDEAL® Pow’r-Gear® 6P Series
All 300 stainless steel. Marine grade clamps.
Screw: 5/16” hex-head, 305 stainless steel.
Lined Band: 5/8” band width. 0.028” thick. 300 stainless steel.
Housing: 0.060” thick. 300 stainless steel.

IDEAL® Pow’r-Gear® 6L Series / Tridon® Trimax® 843 Series
For maximum protection of soft hoses. Protective liner prevents extrusion and shearing of hose through band notches. Extended band design prevents liner from skewing during installation.
All Stainless Steel
Screw: 5/16” hex-head, 410 stainless steel.
Band: 5/8” band width. 0.028” thick. 300 stainless steel.
Housing: 0.060” thick. 300 stainless steel.

IDEAL® Pow’r-Gear® 6M Series
All 300 stainless steel. Marine grade clamps.
Screw: 5/16” hex-head, 305 stainless steel.
Lined Band: 5/8” band width. 0.028” thick. 300 stainless steel.
Housing: 0.060” thick. 300 stainless steel.

IDEAL® Pow’r-Gear® 6X Series
Extra band notches allow greater opened and closed working diameters. Only five sizes cover clamping diameters from 1 1/4” to 10 1/8”. Minimizes inventory investment without compromising applications coverage.
All Stainless Steel
Screw: 5/16” hex-head, 410 stainless steel.
Band: 5/8” band width. 0.028” thick. 300 stainless steel.
Housing: 0.060” thick. 300 stainless steel.

For applications involving both high temperatures and the presence of chlorides, or any other special applications, contact Engineering Technical Support at 1-800-221-0100.
POW’R-GEAR® and TRIMAX® clamps deliver over 800 lbs. of band tension at 150 in.-lbs. of screw torque. That’s more than twice the band tension of conventional clamps.

Measurements in illustrations are in inches [millimeters]

**Flex-Gear® Constant Tension Clamps**

Using a Belleville spring design to eliminate "cold flow" leakage, Flex-Gear® clamps adjust with the hose and fitting to maintain constant tension on the connection, eliminating leak paths. Excellent choice for fluctuating temperature applications and thermal compensation.

**Features and Benefits:**

Belleville spring and clamp construction is built to respond to constant temperature fluctuations. The larger, heavier-gauge, precision-formed springs provide higher rates of band tension and adjustment for a more dependable seal. Inner liner protects against shearing of the hose surfaces. Provides a uniform 360° seal. Reusable.

**IDEAL® Flex-Gear HD® Clamps 41 Series**

Screw: 3/8” hex-head. Plated carbon steel.  
Band: 5/8” band width, 300 stainless steel.  
Liner: 300 stainless steel.  
Housing: 300 stainless steel.  
Springs: 300 stainless steel.

We recommend a minimum of all 300 grade stainless steel clamps for marine applications. For applications directly over galvanized steel, we recommend an intermediate layer of non-conductive material such as vinyl electrical tape.
For applications involving both high temperatures and the presence of chlorides, or any other special applications, contact Engineering Technical Support at 1-800-221-0100.

**IDEAL® Profit Centers - 120 Display**

This compact, wall-mounted or counter display sells 120 full-size and Micro-Gear® clamps from 1/4" to 2 3/4" clamping ranges. Available in multiple assortments, the 120 display helps you sell more clamps in less space.

Size: 14 5/8" x 15 1/16" x 4 3/8". Contains: 120 clamps each*

*Assortsments available with or without barcoded clamps.

### Hardware Assortments

**64 Series** (Part No. 6402)
- All stainless steel, 3/8" screw.
- 9/16" band width.

**67-1 Series** (Part No. 6702-1)
- All stainless steel.
- 1/2" band width.

**68 Series** (Part No. 6802)
- All stainless steel, 5/16" screw.
- 9/16" band width.

### Industrial Assortments

**50 Series** (Part No. 5002)
- Band and housing: Stainless steel.
- Screw: Plated steel.
- 9/16" band width.

**54 Series** (Part No. 5402)
- Band and housing: Stainless steel.
- Screw: Plated steel, collared.
- 9/16" band width.

**57 Series** (Part No. 5702)
- Band and housing: Stainless steel.
- Screw: Plated steel.
- 1/2" band width.

### Plumbing Assortments

**67-5 Series** (Part No. 6702-5)
- All high-nickel grade stainless steel.
- 1/2" band width.
- IAPMO listed with UPC shield.

**63 Series** (Part No. 6304)
- All high-nickel grade stainless steel.
- 9/16" band width.
- IAPMO listed with UPC shield.

### Marine Assortments

**67-4 Series** (Part No. 6704-4)
- All 300 stainless steel.
- 1/2" band width.
- IAPMO listed with UPC shield.

**63-4 Series** (Part No. 6304-4)
- All 300 stainless steel.
- 9/16" band width.
- IAPMO listed with UPC shield.

**67-6 Series** (Part No. 6702-6)
- All 316 stainless steel.
- 1/2" band width.

### Automotive Assortments

**50 Series** (Part No. 5004)
- Band and housing: Stainless steel.
- Screw: Plated steel.
- 9/16" band width.

**54 Series** (Part No. 5404)
- Band and housing: Stainless steel.
- Screw: Plated steel, collared.
- 9/16" band width.

**57 Series** (Part No. 5704)
- Band and housing: Stainless steel.
- Screw: Plated steel.
- 1/2" band width.

For applications involving both high temperatures and the presence of chlorides, or any other special applications, contact Engineering Technical Support at 1-800-221-0100.
IDESL® Profit Centers - 450 Display

This display features 450 full-size and Micro-Gear® clamps from 1/4” to 5” clamping ranges. Available in multi assortments, the 450 display includes a built-in size chart for easy clamp selection and a plan-o-gram. Mount it to a pegboard or place on a shelf.

Size: 26 1/4” x 25” x 6 1/4”. Contains: 450 clamps each*

*Assortments available with or without barcoded clamps. All assortments ship with merchandiser.

Hardware Assortments

**67-1 Series** (Part No. 67050)
All stainless steel.
1/2” band width.

**68 Series** (Part No. 6805)
All stainless steel.
9/16” band width.

Marine Assortments

**67-4 Series** (Part No. 6702-4)
All 300 stainless steel.
1/2” band width.
IAPMO listed with UPC shield.

**63-4 Series** (Part No. 6705-6)
All 300 stainless steel.
9/16” band width.
IAPMO listed with UPC shield.

**67-6 Series** (Part No. 6305)
All 316 stainless steel.
1/2” band width.

Plumbing Assortments

**67-5 Series** (Part No. 6705-5)
All high-nickel grade stainless steel.
1/2” band width.
IAPMO listed with UPC shield.

**63 Series** (Part No. 6305)
All high-nickel grade stainless steel.
9/16” band width.
IAPMO listed with UPC shield.

Industrial Assortments

**50 Series** (Part No. 5001)
Band and housing: Stainless steel.
Screw: Plated steel.
9/16” band width.

**57 Series** (Part No. 5705)
Band and housing: Stainless steel.
Screw: Plated steel.
1/2” band width.

We recommend a minimum of all 300 grade stainless steel clamps for marine applications. For applications directly over galvanized steel, we recommend an intermediate layer of non-conductive material such as vinyl electrical tape.
IDEAL® Packaging

Ideal products are offered in Visi-Paks™, 10 pack boxes, bulk packs, and a variety of convenient, retail-friendly configurations.

Visi-Paks display the products to the consumer and include application information helpful in the retail or DIY markets.

For applications involving both high temperatures and the presence of chlorides, or any other special applications, contact Engineering Technical Support at 1-800-221-0100.

---

*We recommend a minimum of all 300 grade stainless steel clamps for marine applications. For applications directly over galvanized steel, we recommend an intermediate layer of non-conductive material such as vinyl electrical tape.*
**Stainless Steel Material Facts and Properties:**

- The 300 grades of stainless steel are known as “non-magnetic.”
- The 400 grades of stainless steel and plated steel are known as “magnetic.”
- The 200 and 300 grades of stainless steel resist corrosion better than 400 grades of stainless steel and better than plated steel.
- Only 300 grades should be considered for marine applications.
- Applications that require IAPMO listed products can include 201 and 300 grade stainless steels.
- Our clamps are compliant with the RoHS directive. All of our clamps are free of Hexavalent or Chromium 6 agents and are known as “hex-free.”
Air Aware:
Tire Pressure Monitoring Systems (TPMS)

Amflo:
Air Line Accessories
Pneumatic Hoses

Edelmann:
Power Steering Hose Assemblies
Automotive Fittings
Brake Lines
Transmission Oil Cooler Lines & Fittings
Engine Oil Cooler Lines
Unicoil™ Hose Benders

Ideal:
Hose Clamps
T-Bolts

Plews/LubriMatic:
Oils, Greases & Spray Lubricants
Lubrication Equipment

Schrader-Bridgeport:
Air Compressors & Pressure Washers
Tire Valves (Passenger & Truck)

Stant:
Fuel, Radiator & Oil Filler Caps
Thermostats
Cooling & Fuel Cap Testers

Tridon:
Hose Clamps
T-Bolts

Tru-Flate:
Air Line Accessories
Tire Gauges & Hardware
Camel® Tire Hardware & Repair
